**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Consumers need choices and I am one of them. Allowing large corporate entities like AT&T to control the market for broadband is not only unfair, but creates a monopoly over other ISPs. I've specifically chosen to support my local provider because they have been able to give me faster service and better support that far exceeds what AT&T has ever been able to do for me.

Do not allow price hikes that will increase the cost of internet service and put smaller local ISPs out of business. Local competition is key to driving innovation and keeping large corporations like AT&T on their toes. It isn't fair to allow these large corporations to control the marketplace for broadband and become monopolies to control how much I will be required to pay for service.
